# Founder's Profile and Track Record

## Extensive investing record across India, GEM and the US

- Prashant joined Goldman Sachs Asset Management (GSAM) in 2000 in the US Growth Equity team
- In 2004, he became **Senior PM and Co-Chair of the Investment Committee** on the **US Growth Equity team** which managed US\$25 bn
- Returned to Mumbai in 2006 to start **GSAM India business**, where he served as **CIO and CEO / Co-CEO** until 2013
- In 2013, Prashant moved to Singapore as **CIO and Lead PM of both India and Global Emerging Markets**
- Directly managed more than **US\$5.0 bn** out of the USD\$6.5 bn managed by his team
- Prashant and the funds managed by him at GSAM earned several awards including Citywire AAA rating and FundCalibre Elite rating
- Prashant is **AAA rated by Citywire** based on the three year risk-adjusted performance across all funds he is managing to 31<sup>st</sup> July 2021

### CIO and Lead PM of GS India Equity

- Prashant launched GS India Equity strategy in **March 2007** with US\$ 5.0mn seed capital from Goldman Sachs
- Scaled GS India Equity business to **US\$2.5 bn** with distribution across multiple channels in Europe, Asia, and USA
- Since inception the strategy delivered peer group leading cumulative **265.8% gross USD returns<sup>1</sup>** vs. 66.1% for its benchmark

### CIO and Lead PM of GS GEM Equity

- Prashant took over as CIO and Lead PM of GS GEM Strategy in **2013** with approximately US\$600 mn in total assets
- Scaled GEM business to **US\$2.6 bn** with distribution across multiple channels in Europe, Asia and USA
- During his tenure, the strategy delivered peer group leading cumulative **36.3% gross USD returns<sup>2</sup>** vs. 13.1% for its benchmark

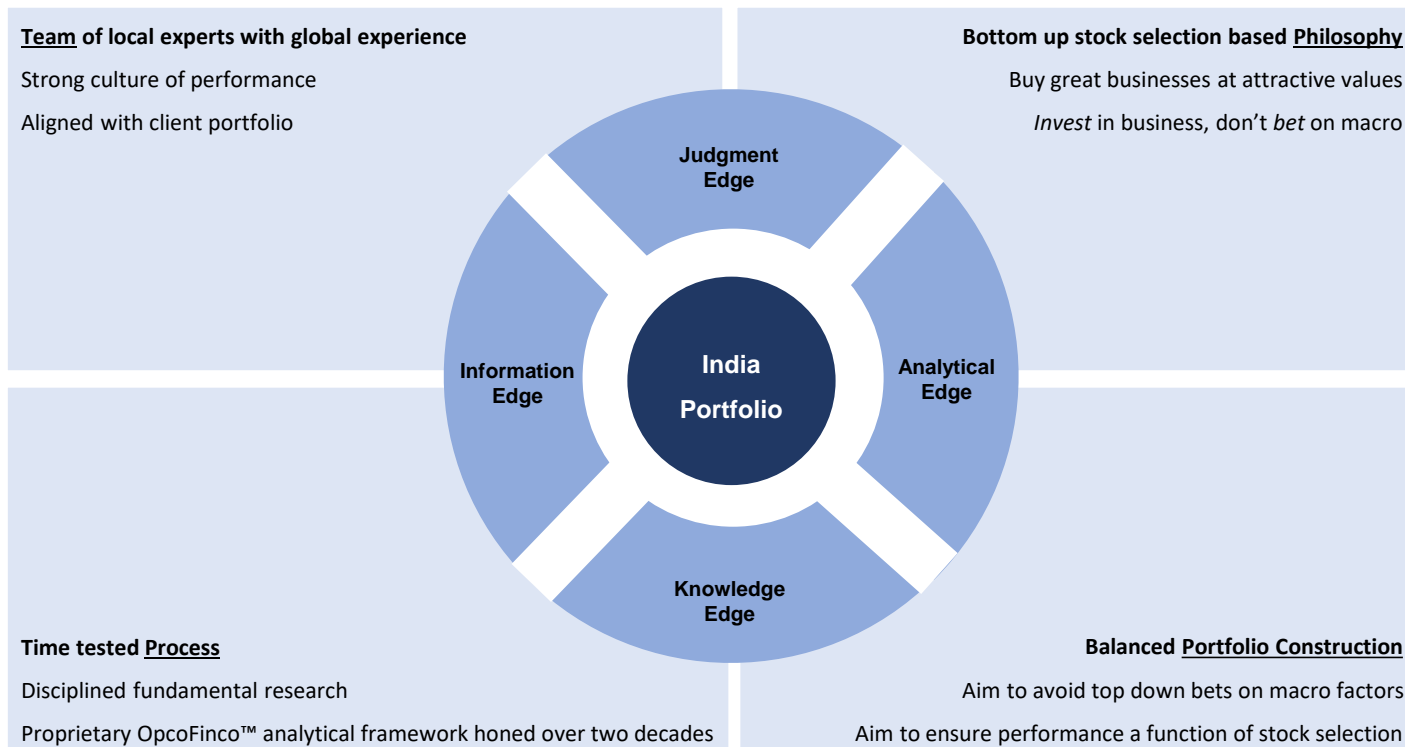

<sup>1</sup>Past performance Gross of Fees in US\$ for GS India Equity Portfolio. <sup>2</sup>Past performance Gross of Fees in US\$ for GS EM Equity Portfolio.

"Past performance is not a reliable indicator of future results and returns may increase or decrease as a result of currency fluctuations. There can be no assurance that comparable results can be achieved or that similar investment strategy can be implemented or that investment objectives can be achieved."

WOCM also acts as the Investment Advisor, providing non-binding, non-exclusive investment research advice to offshore mandates involving Indian securities. <sup>3</sup> The Ratings are based on the manager's three year risk-adjusted performance across all funds the manager is managing to 31<sup>st</sup> July 2021

# Investment Philosophy

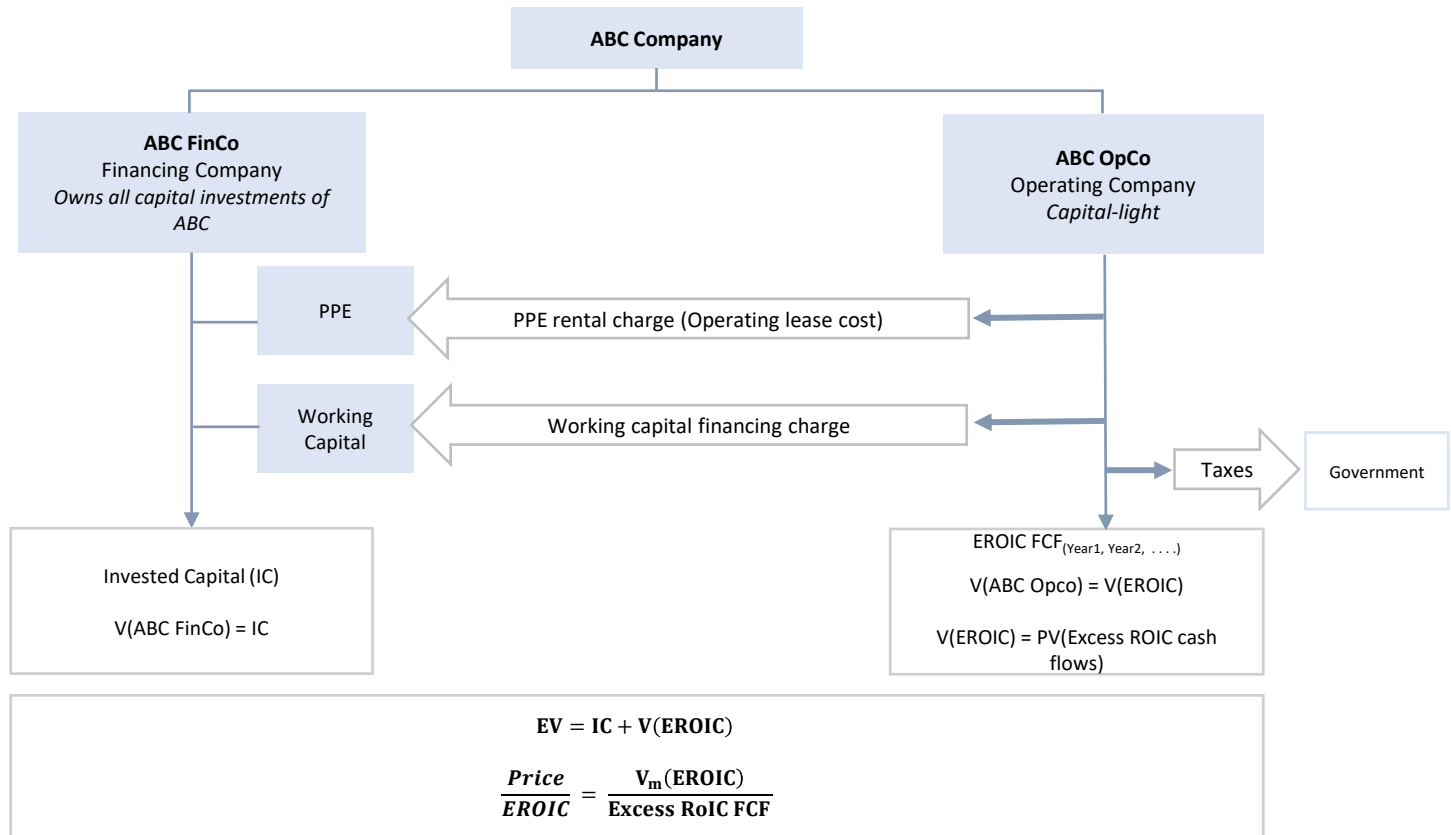

Outsized returns can be earned over time by investing in great businesses at attractive valuations

$$\text{Value of a business} = \frac{CF}{r - g}$$

# OpcoFinco™ Framework

# Investment Philosophy

Aim to avoid businesses with weaker characteristics

## Poor corporate governance

Siphoning of cash or value  
Manipulation of stock prices  
Unethical business practices  
Misaligned interests

### Examples

Numerous across sectors  
Certain commodity companies  
State-owned enterprises

## Weak returns on incremental capital

Excessive competition in capital-intensive industry  
Misallocation of capital  
Empire building

### Examples

Conglomeration without capabilities

## Substitution or obsolescence risk

Existential threat from technological developments

### Examples

Print media from online  
Wind energy from solar  
Combustion engine from electric vehicles

*Beware of value traps*

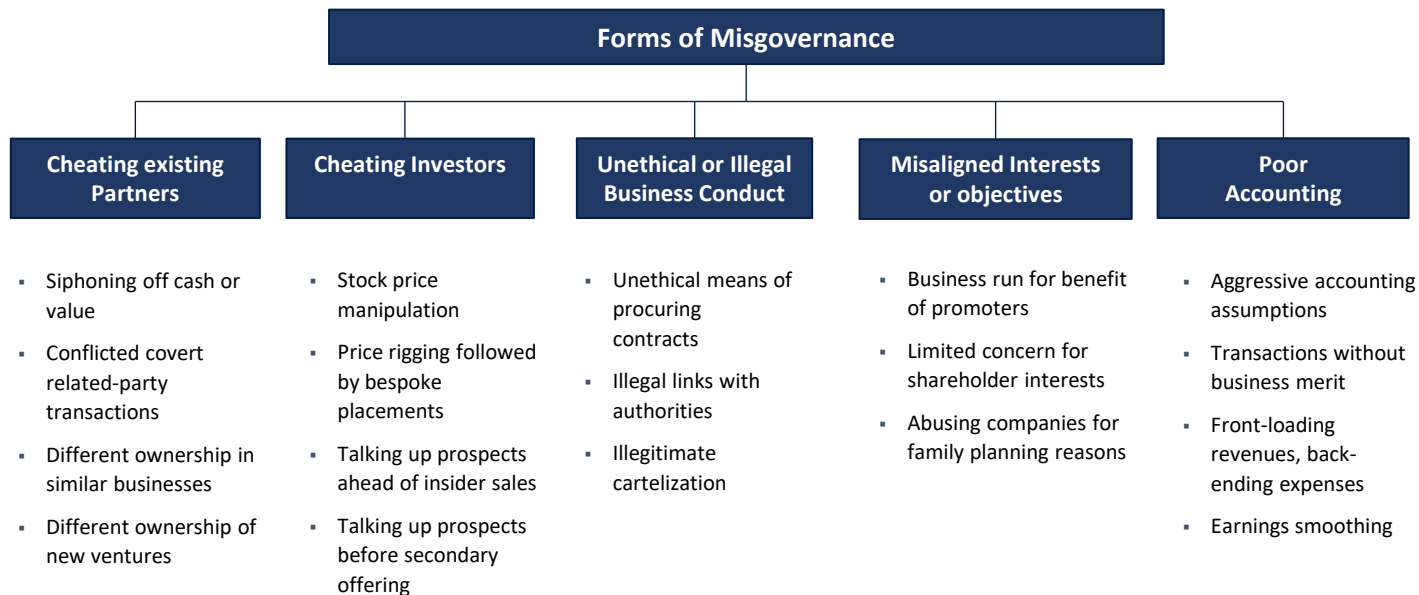

# Investment Process

We distil from a broad investible universe

# Investment Process

We aim to avoid misgoverned companies

*He that lieth down with dogs shall rise up with fleas – Benjamin Franklin*

# Investment Process

We aim to adhere to a time tested analytical framework in a disciplined manner

*Keep perspective of business cycles, rather than accounting years*

# Portfolio Construction & Risk Management

# Portfolio Construction & Risk Management

We aim to ensure performance is a result of skill rather than chance

- **Balanced portfolio** of select companies agnostic to benchmark
- Focus on ensuring alpha generation is a function of **stock selection**
- Aim to consciously **avoid market timing** or **sector rotation** or other such top-down bets
- Understand, monitor, and aim to contain **residual factor risks** that are **by-product of stock selection**
- Typical exposure limits
  - Single stock: 10% at market value
  - Single promoter group: 25%
  - Single industry: 30%

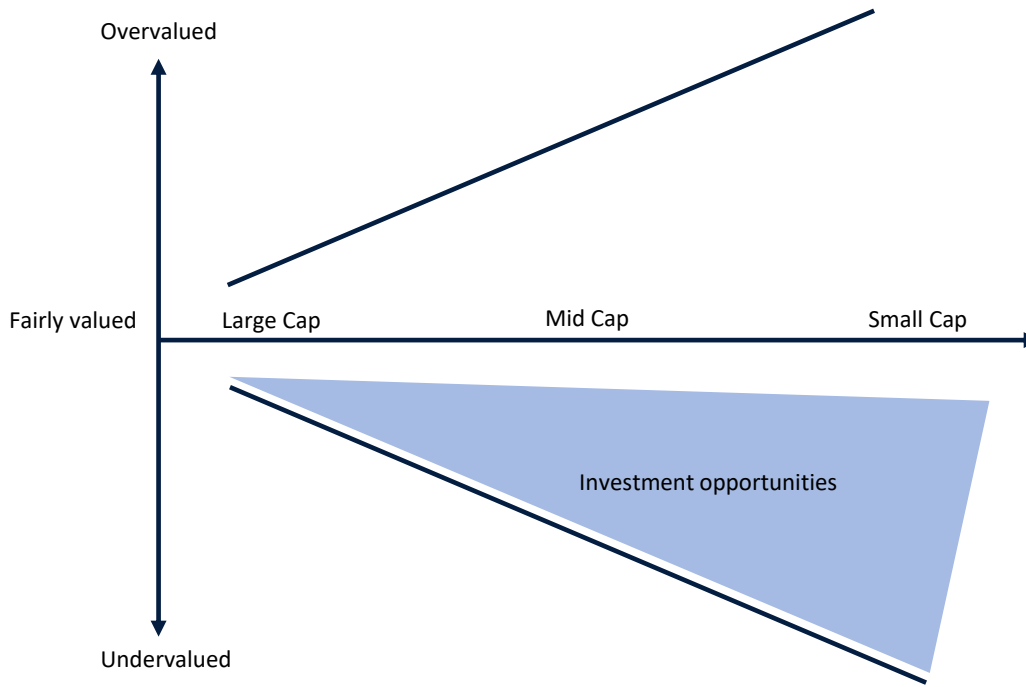

*We never forget that in macro, we only have hunches: in the micro, we can develop justifiably deep conviction*

*- Seth Klarman*

# Case Studies\*

---

\*The following case studies are illustrative examples only. The illustrated companies included here may or may not necessarily be held in any portfolio at any time in the past or currently.

## Case Studies\* - Infoedge

---

infoedge

### India's leading classifieds company

- Infoedge's Naukri.com is India's dominant online jobs portal with 70%+ traffic share. It also owns 99acres.com which is the No. 1 online real-estate classifieds portal with 50% traffic share
- India's low internet penetration provides a long runway of growth for these dominant classified businesses
- Management has an excellent track record of execution. It has also made investments in India's leading food delivery company (Zomato), and India's top online policy aggregator (Policybazar)

---

\*The following case studies are illustrative examples only. The illustrated companies included here may or may not necessarily be held in any portfolio at any time in the past or currently.

# Structure and Key Terms

Investment Approach	White Oak India Top 200 PMS		
Structure	Discretionary Portfolio Management Services		
Portfolio Manager	White Oak Capital Management Consultants LLP		
Investment Objective	The objective of the strategy is to achieve long term capital appreciation by primarily investing in top 200 'listed securities' by market capitalisation in India. The investment strategy is long only with a bottom-up stock selection approach. The investment philosophy is, that outsized returns are earned over time by investing in great businesses at attractive values. A great business, in our view, is one that is well managed, scalable, and generates superior returns on incremental capital. Valuation is attractive when the current market price is at a substantial discount to intrinsic value.		
Minimum Investment	INR 50 lakhs		
Investment Amount & Management Fees	INR 50 lakhs – INR 2 crores	INR 2 crores – INR 5 crores	> INR 5 crores
	2.00% per annum	1.75% per annum	1,.60% per annum
Exit Load	Nil		
Operating Expenses	At actuals, capped at maximum prescribed by regulations		
Benchmark	S&P BSE 200 TR Index		
Custodian	ICICI Bank, Kotak Mahindra Bank Limited and HDFC Bank Limited		

# Investment Case for Indian Equities

# Alpha Opportunity – Most Compelling Reason to Invest

\*Annualized, compared with benchmark/Index †Persistence of Managerial Performance = Percentage of active managers in the top half of performance from 2009 to 2013 that are in the top half of performers from 2014 to 2018

Source: The Wall Street Journal.

# The Long-term Case for Indian Equities

---

## **Economic evolution**

- Once in an era transformation
- Multi-generational opportunity

## **Strong domestically driven growth**

- Key driver for global growth over coming years
- Attractive demographics, domestic consumption and investment

## **Profitable and diverse corporate universe**

- Superior corporate profitability, superior asset mix
- Entrepreneurially driven capital allocation

## **Institutional infrastructure of a mature democracy**

- Independent Central Bank, Election Commission and Judiciary
- Strong property rights under a Common Law system

# Risk to the Investment Case<sup>1</sup>

---

## **Near term risks**

- Uncertainty related to Covid pandemic
- Sharp reversal in global markets
- Sharp spike in oil prices

## **Other commonly held concerns**

- Weak infrastructure
- Geo-political tensions
- Social unrest due to wealth disparity or caste system
- Trade wars

---

<sup>1</sup>Note that these are not all the risks to the investment case but only a high level summary of certain key risks.

# 1QFY22 Corporate Earnings: A strong season

1QFY22 earnings growth at 100% YoY

Earnings surprises continue albeit at lower pace

FY22 earnings growth forecasted to be the best since FY04

India's earnings growth relatively more stable

Source: Motilal Oswal, UBS, Credit Suisse, White Oak

# Corporate Earnings: Structural trends emerging

## Consolidation of market share is taking place across sectors

\*For Consumer Electricals and Paints the industry data is for all the listed players

\*\* For Banks, top four private sector banks, For Real Estate, data for following listed developers: Oberoi, Sunteck, Godrej Properties, Brigade, Sobha, Prestige and DLF

## EBITDA margin expansion on the back of cost control

## Corporate deleveraging cycle underway

Source: Antique, Credit Suisse, ICICI Securities, IIFL, Jefferies, Kotak, White Oak

# Structural Reforms to further 'Ease of Doing Business'

---

## **Labour reforms & competitive federalism**

- Landmark labour reforms – significant simplification of complex, archaic, pre-independence era laws
- Increased instances of competitive federalism – subsidies, tax concessions, easier land availability and approvals

## **Agriculture and mining reforms**

- Amendments to Essential Commodities Act – deregulation of production, supply, distribution and prices
- Liberalization of coal mining – ending government's monopoly

## **Privatisation:** non-strategic SOEs to be privatised

- Defence: Encouraging domestic production; Foreign Direct Investment (FDI) increased to 74% from 49% in key sectors
- Privatisation of Power Distribution and Airports

# Strong momentum in reforms agenda...

## Phase I- 'Restructuring'

- GST- *creating a common market*
- Modern bankruptcy law - *Time bound resolution of bad loans*
- Real Estate regulation reform- *Increasing transparency in real estate*

## Phase II- Growth enabling

- Labour reforms - *easing of compliance burden*
- Outright privatisation- *Oil marketing companies, SOE banks, Logistics*
- Mining & Agri reforms- *Liberalisation of coal mining; sweeping changes in agri sector*

## Phase III- Growth enhancing

- Corporate tax rate cuts - *India's tax rate the lowest among EMs*
- Production Linked Incentives (PLI) - *facilitating 'Make in India'*
- National Infrastructure Pipeline - *addressing infra bottlenecks, improving competitiveness of the economy*

# ...Reflected in improved 'Ease of Doing Business' rankings

Ranks across various components of Ease of Doing Business (across 189 countries)

Source: World Bank (Doing Business report 2020), White Oak Research as of end February 2021.

# Landmark Tax Reforms

Base tax rate comparison across SE Asia

*In September 2019,  
effective corporate tax  
rates reduced from 35% to  
25% for all companies and  
to 17% for new  
manufacturing companies*

- Biggest tax reform after Goods and Services Tax (GST) since the mid-90s, eliminating risk of rising tax expectations
- Reduced cost of doing business in India to attract new investments in the country
- Adds momentum to the formalization of the economy by increasing tax compliance

*Making corporate India competitive*

Source: UBS, White Oak Research

# PLI : A potential gamechanger for manufacturing

Sector	Size (US\$bn)
Auto & Comps	7.8
Electronics manufacturing	6.7
EV battery/cell-manufacturing	2.4
Pharma	2.1
Food products	1.5
White goods	0.9
Others	5.6
<b>Total</b>	<b>27.0</b>

## What is different?

Time bound

Focus on creating 'national champions'

Incremental production (*not only exports*)

# Electronics sector: Production target of \$143bn in 5 years

## Make in India

India's share in smartphone manufacturing has doubled in last 2 years

Can have significant impact on GDP as well

- Apple, Samsung, Xiaomi: scaling up India operations substantially
- During the first five months of scheme's implementation, the applicant companies have produced goods worth ~INR 350bn while generating additional employment of 22,000 jobs

Source: Credit Suisse, White Oak Research as of end February 2021.

# Shifting Supply Chains: Specialty Chemicals

## Make in India

Indian speciality chemicals industry positioned strongly to win global market share

- MNCs seek to diversify procurement away from China
- **Covid has exposed global supply chain vulnerability**
- China's erstwhile competitive advantages of labour cost, and lax compliance are weakening

Expected 5Y CAGR of specialty chemicals

## Advantage India

- **Strong adherence to global manufacturing standards**
- Capabilities in complex chemistry
- Strong IP protection

Market share: 2006

Market share: 2019

Source: UBS, Ministry of Commerce, CMIE, White Oak Research as of end February 2021.

# Indian Pharma: Critical to global healthcare

## Make in India

- India has over **65% of world's vaccine manufacturing capacity**
- Accounts for 40% of US generic volume (largest pharma market)
- India has 2<sup>nd</sup> highest number of US FDA approved plants
- Emerging destination for Contract Development and Manufacturing
- Medical Tourism offers huge growth potential for India given world class infrastructure and significant cost advantage

### India's market share in US generics

Market share %, calendar year-ends, 2011-19

### India has the largest FDA approved plants after the US

Source: IQVIA, White Oak Research as of December 2020.

# IT Services: Emerging Dominance

- Indian IT services is **~\$147 bn** industry
  - Grown 3.6x in the past decade (11.5% CAGR)
  - Highly scalable business model
  - Five Indian vendors with c\$10bn revenue
- Sustained market share gains against global competition
  - Market share up from 6.6% in 2010 to 12.1%
  - Winning against global competitors** such as IBM, DXC, Capgemini
- Global tech leaders setting up ER&D centres in India
  - Large attractive talent pool of STEM graduates
  - 47% of global captives set up in India**
  - Microsoft, Google, Amazon have large setups in India
  - 70-80% of H1B visas issued to Indians

Source: Nasscom, Kotak, White Oak Research as of December 2020.

# Lessons from 2020

---

## Macro- Shacro

20-20 from 2020: The futility of predicting investment returns based on macroeconomic worries and events

### **Lesson #1**

- The usual perennial macroeconomic worries of the well-known unknowns variety are a colossal waste of time
- They hardly influence the future returns from equity markets, if any at all

### **Lesson #2**

- Nobody has a crystal ball to forecast cataclysmic risk events of the unknown unknown variety, ex: the pandemic
- Market implications remain unpredictable even if one were bestowed with perfect prior knowledge

### **Lesson #3**

- Investment decisions bereft of bottom up analysis, and instead driven by macro considerations, are fraught with high risk of substantial absolute and relative losses

# White Oak's Perspective

---

The value of the market at any time is present value of aggregate perpetual future cash flows

The market is fairly valued at all times

## Relevance of Macro

- View **macros** as source of random risks, **not as opportunity to add alpha**
- Consciously **avoid top-down misadventures** – market timing, sector rotation
- Stay **fully invested**, with a bottom up approach to investing in great businesses at attractive valuations
- Maintain a balanced portfolio construction approach at all times

# Nifty through CY 20

# Nifty 2008 - 2020

# Lower interest rates have led to a structural re-rating

# Case study: Israel

## Once 25% of population got vaccinated

## Case load declined

## As did the death rate

Source: WHO, Bloomberg, Investec, White Oak Research

# Covid-19: Vaccination progress in India

## Progress so far:

- Vaccination rate in August at 5mn doses/day. In the last week of August, as many as 10mn doses have been administered per day.
- 660mn doses have been administered (in absolute terms, the highest globally after China).
- Nearly 90% of the vulnerable population (45+ years) has received at least one dose.
- 58% of the population in Tier-1 cities have received at least one dose.

## Roadmap ahead: Vaccine supply expected to increase through the year

- **Universalization of Vaccination:** 75% of vaccines under universal vaccination program free of cost at government facilities
- Private sale allowed to the extent of 25% of total supply, at pre-declared prices
- Earlier, emergency authorization was granted to vaccines approved globally
