Investment Philosophy

Outsized returns can be earned over time by investing in great businesses at attractive valuations

$$Value\ of\ a\ business = \frac{CF}{r - g}$$

OpcoFinco™ Framework

Investment Process

We distil from a broad investible universe

Portfolio Construction & Risk Management

We aim to ensure performance is a result of skill rather than chance

- **Balanced portfolio** of select companies agnostic to benchmark
- Focus on ensuring alpha generation is a function of **stock selection**
- Aim to consciously **avoid market timing** or **sector rotation** or other such top-down bets
- Understand, monitor, and aim to contain **residual factor risks** that are **by-product of stock selection**
- Typical exposure limits
 - Single stock: 10% at market value
 - Single promoter group: 25%
 - Single industry: 30%

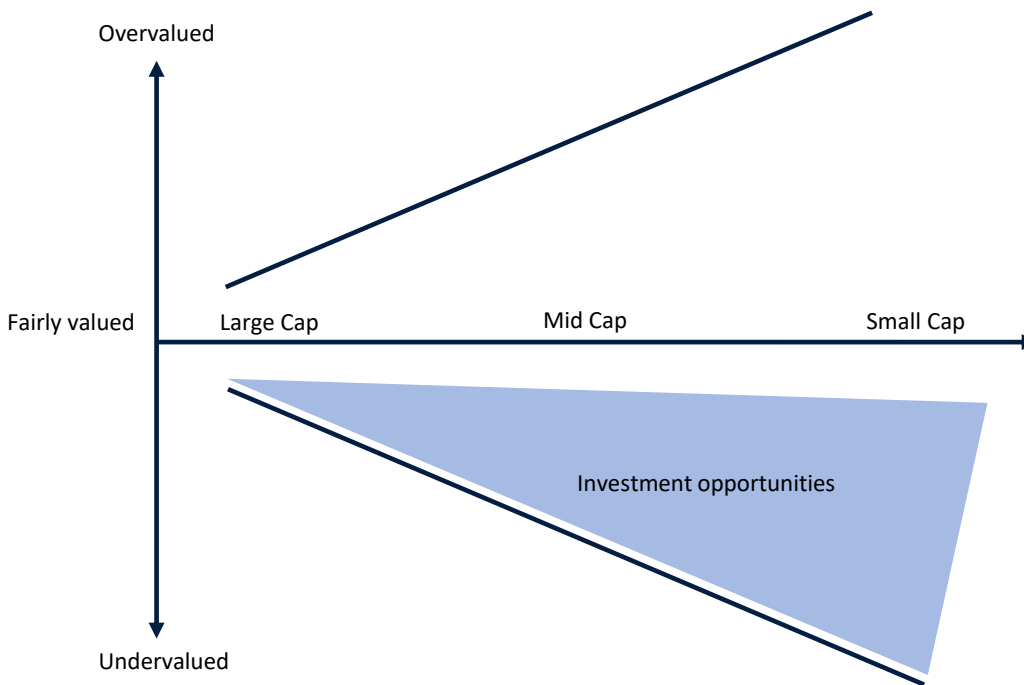

We never forget that in macro, we only have hunches: in the micro, we can develop justifiably deep conviction
 - Seth Klarman
